Clipperton
Hiring Team

Dear Clipperton Team,

Varun Mishra**Clipperton Team**As a passionate advocate for technology and innovation, I am thrilled to apply for the Technology M&A Analyst Internship at Clipperton. Your commitment to supporting fast-growing technology companies through strategic transactions resonates deeply with my career aspirations. With an academic background in Digital Technology & Management and hands-on experience in product development and automation, I am eager to contribute to your team and support your mission of driving impactful M&A initiatives.In my current role as a Werkstudent at Conrad Electronic SE, I successfully built an intelligent automation ecosystem that reduced support ticket volume by 60% for over 400 B2B partners.

This achievement not only demonstrates my analytical and commercial thinking but also highlights my ability to manage complex projects from inception to completion. Additionally, I led a UI/UX overhaul of our seller support platform, which significantly enhanced user satisfaction and engagement.

These experiences have equipped me with the skills necessary to prepare investment memoranda and conduct thorough financial analyses, aligning perfectly with the responsibilities outlined in the internship description.I am particularly drawn to Clipperton's entrepreneurial spirit and unique company culture, which fosters innovation and collaboration. Your recent transactions in the SaaS and health tech sectors, such as Didomi's €83m LBO and Kinvent's Series B funding, reflect a commitment to supporting transformative technology solutions. I am excited about the opportunity to work alongside a team that values intellectual discipline and integrity while contributing to projects that have a real-world impact.

Yours sincerely,

VARUN MISHRA
